OpenCP logo guidelines

Developed by **CIVO**

Overview

OpenCP (Open Control Plane) is an open source project originally developed by **Civo** to create a single interface to manage infrastructure using a single tool, kubectl.

Logo & brandmark

Full colour logo with brandmark

Standalone full colour brandmark
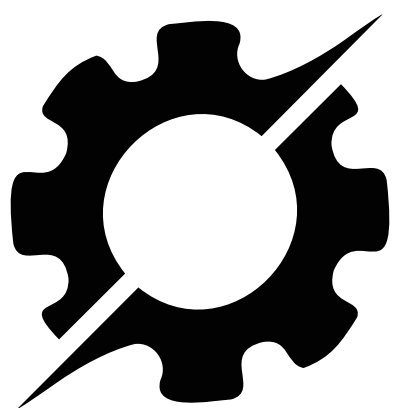

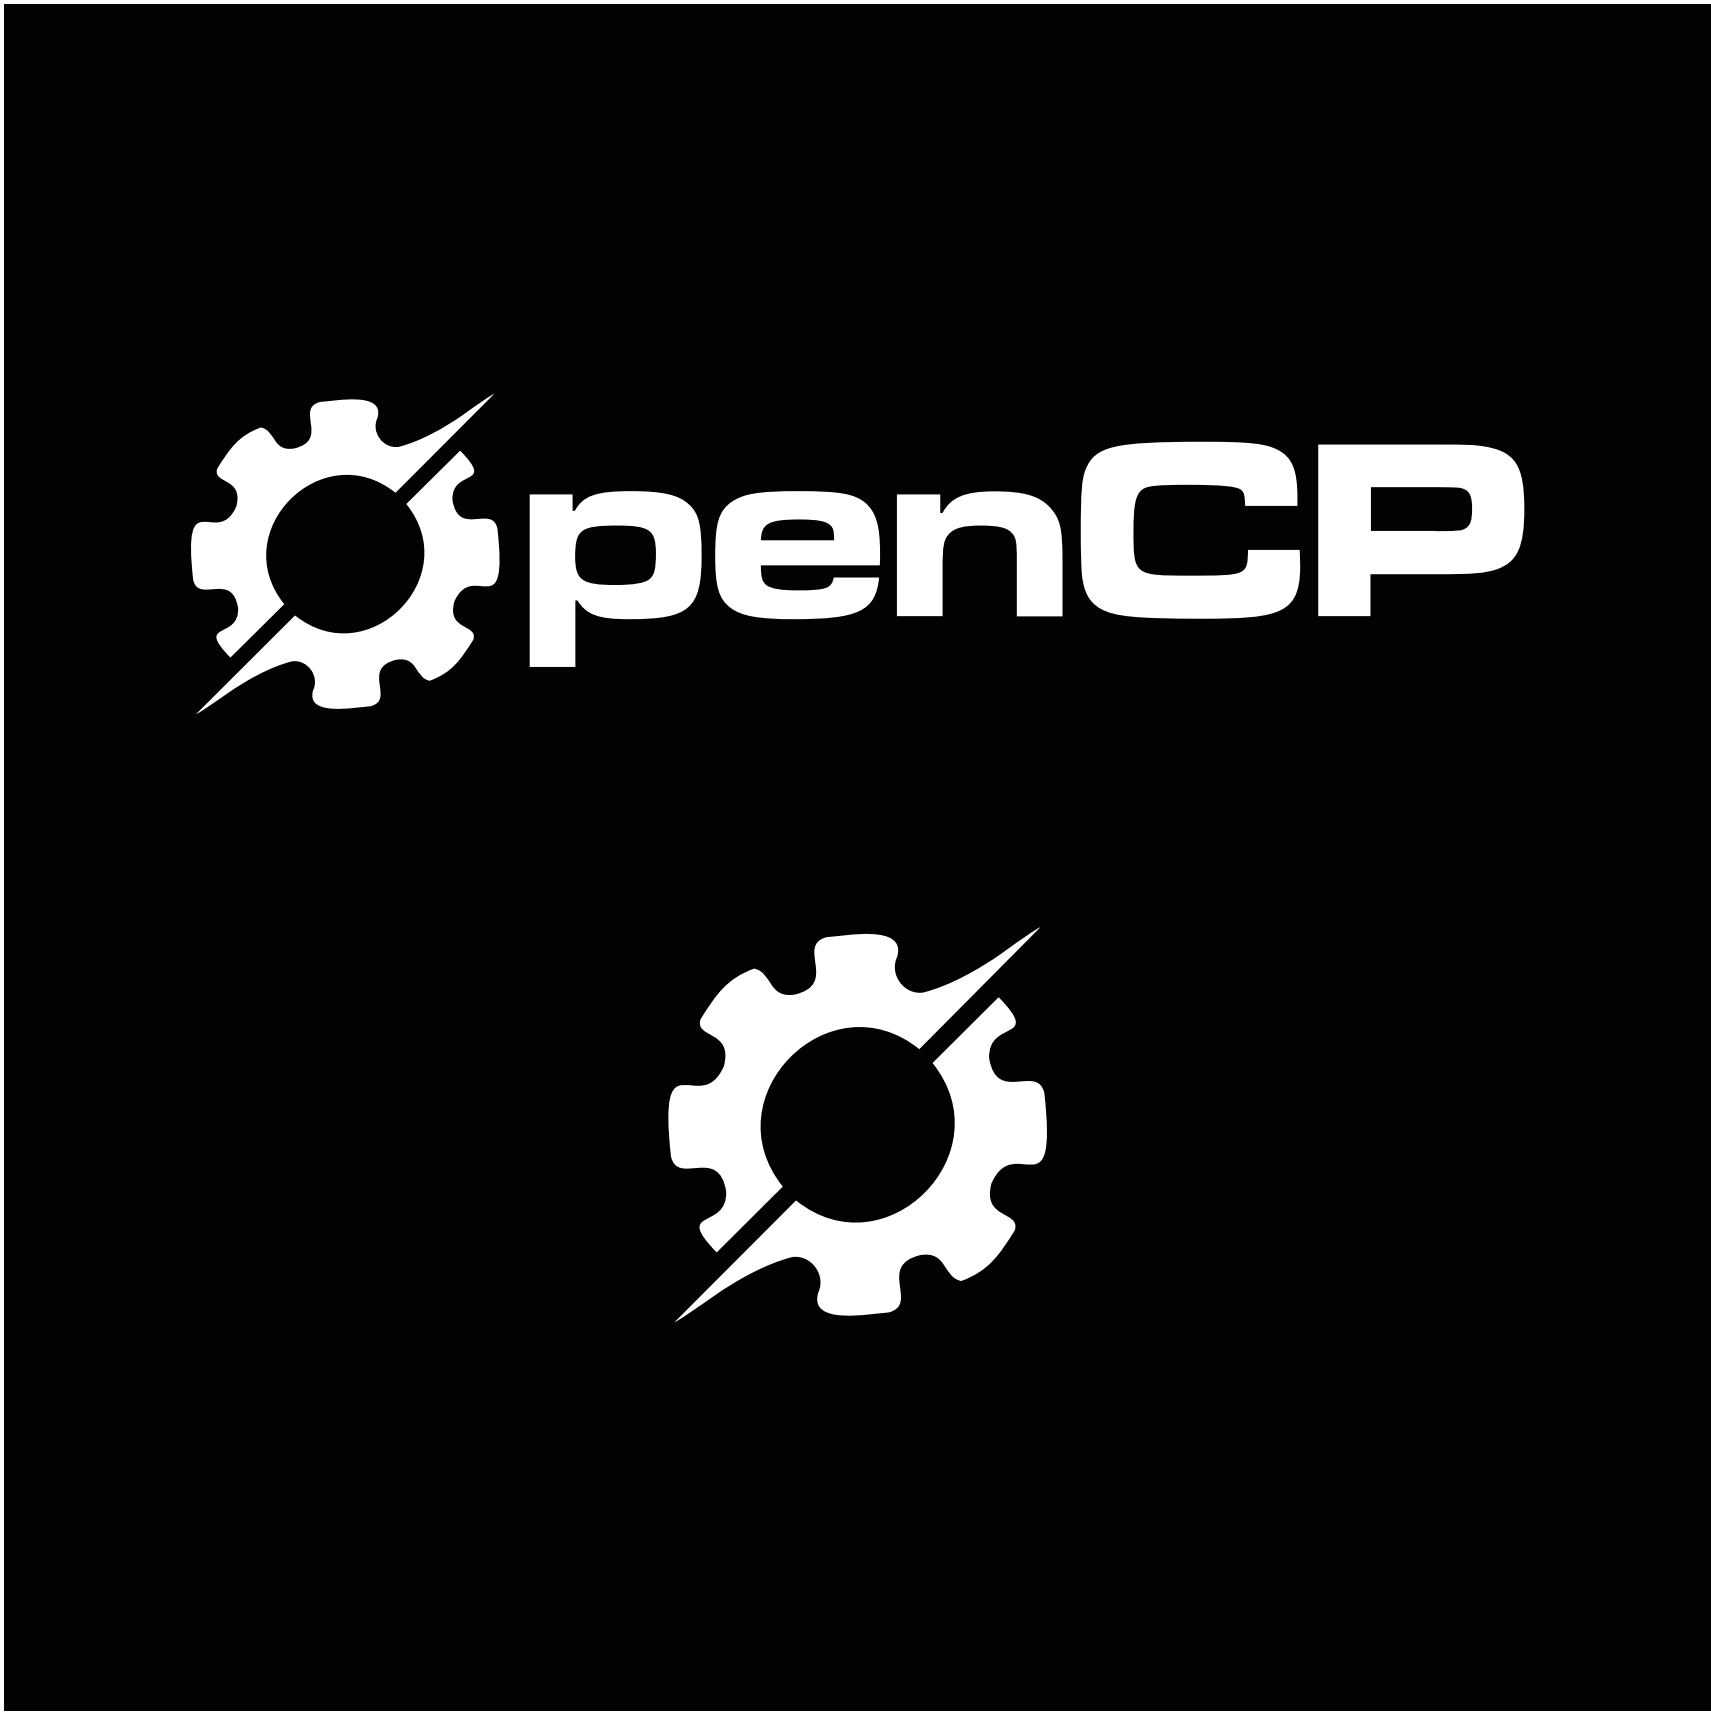

Spacing

Colour variations

Full colour

Black

White

Usage

- Where possible, use the full colour version on a white background

- The brandmark is to be used only where there is supporting text or url

- The logo is not to be stretched or edited and should instead be scaled down

- No other colour variations are to be used except the three options set

Questions

Use of any logo or brandmark is open source and any changes will be documented in the OpenCP GitHub repo.

If you have any questions regarding usage, please email marketing@civo.com.
